Raising Funds for Democrats.

Funds to aid in the National elec-
tion are needed by the Democrats and
every effort is being made to raise
Bourbon's pro rata of the \$50,000 to be
secured in Kentucky to defray the ex-
penses of the campaign.

With this object in view Chairman
Dudley of the Seventh District Com-
mittee has delegated Mayor J. T. Hin-
ton to take charge of the work in
Bourbon county and he is pushing it
with all vigor looking to securing the
proportion of the county to the State's
appropriation.

Mayor Hinton is meeting with much
success in his efforts to raise the mon-
ey and Democrats are coming forward
liberally to aid in the common cause of
Democracy. This will be the last call
made on the Democrats and those who
wish to assist the party to victory this
fall should contribute without hesita-
cy.

Not in many years has the prospects
for Democracy been brighter, and
Bourbon county should do her part to-
ward this end, making her contribu-
tion toward the campaign fund larg-
er than any of her sister counties in
the Ashland district. Following is
the list of contributions made to May-
or Hinton:

C. M. Thomas, \$50.
J. T. Hinton \$50.
Denis Dundon, \$25.
Pearce Paton, \$20.
A. S. Thompson, \$20.
W. F. Talbott, \$10.
Chas. McMillan, \$20.

George Batterton, \$20.
Wm. Shire, \$5.

Joe Davis, \$5.
Wm. Webb, \$10.
Bruce Miller, \$10.
Dr. J. T. Vansant, \$5.
Harris & Speakes, \$5.
W. T. Brooks, \$5.
Swift Champ, \$10.
Total, \$325.

Anyone desiring to make contribu-
tions can do so at either the store of
Mayor J. T. Hinton, at the office of
Sheriff A. S. Thompson or Judge
Denis Dundon at the court house.

Public Speaking.

voters of Bourbon county at the court
house Monday afternoon, October 7, at
one o'clock. Every Democrat should
attend.

Negro's Identity Established.

Through the efforts of Coroner Ru-
dolph Davis the identity of the negro
killed in the Duncan avenue cut on
the night of July 15 has been estab-
lished. Certain articles of his apparel
preserved by Mr. Davis were identi-
fied by a contractor for whom he has
worked as being those of Boyd Bagd-
ell. His home was in Alabama and he
had been employed in various construc-
tion camps along the line of the Louis-
ville and Nashville railroad.

Registration Shows Big Gain.

Registration day in this city Tuesday
passed off quietly, and with a large
per cent of the eligibles in the city
visiting the polls during the day.
Both the Republicans and Democrats
were exceedingly active in getting out
their full strength and the latter ran
up a majority of 412, an increase over
last year's registration, while the Re-
publican columns show a slight de-
crease.

A total of 1,460 voters registered,
906 of which were Democrats, 494 Re-
publicans, 37 Independent, 20 Progres-
sives and 3 Socialists. This gives the
Democrats a plurality of 412 over the
Republicans and a majority of 352
over all in the city.

As compared with the registration
of last year the figures show a gain of
37 in the Democratic column while the
Republicans are credited with a loss of
21. The Democratic majority in the
city will be increased to 500 with the
supplemental registration.

Campaign Chairman J. T. Hinton
who was actively engaged in getting
out the vote of the city, was highly
elated over the showing made by the
Democrats and expressed the opinion
that Governor Wilson would poll more
than 1,000 votes in the city of Paris in
the regular election in November.
The result of the registration in the
six precincts in the city Tuesday was
as follows:

	D	R	I	P	S

DECIDE YOURSELF.

The Opportunity is Here, Back-
ed by Paris Testimony.

Don't take our word for it.
Don't depend on a stranger's state-
ment.

Read Paris endorsement.
Read the statements of Paris citi-
zens.

And decide for yourself.
Here is one case of it:

Mrs. A. C. Crawford, East Tenth
street, Paris, Ky., says: "Although I
never had occasion to take a kidney
medicine myself I know what Doan's
Kidney Pills will do, for they have been
used in our family. One of us was
suffering from backache and pains
through the kidneys and the action of
the kidneys was irregular. Doan's Kid-
ney Pills gave splendid results."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.

Remember the name—Doan's—and
take no other.

Highest and Lowest Points.

The highest point in the United
States is the summit of Mount Whit-
ney, California, 14,501 feet above the
sea level. From this spot one may
look down upon the lowest point in
the United States, only ninety-two
miles distant, but 276 feet below the
sea level, a difference in altitude of
14,000 feet. This lowest point is in
Death Valley.

Here is a woman who speaks from
personal knowledge and long experi-
ence, viz., Mrs. P. H. Brogan, of Wil-
son, Pa., who says, "I know from ex-
perience that Chamberlain's Cough
Remedy is far superior to any other.
For cough there is nothing that excels
it." For sale by all dealers.

In a Hammock With Browning.

The Spring Hill New Era tells of a
young lady down there who was visit-
ing with her aunt in the country. She
came in late in the afternoon and
her aunt asked her where she had
been. "In the hammock all the after-
noon," she responded, "with my be-
loved Robert Browning." The aunt
eyed her steadily. Then she said:
"If I hear of any more such scandal-
ous proceedings I shall write to your
mother."—Topeka Capital.

Sick headache is caused by a disor-
dered stomach. Take Chamberlain's
Tablets and correct that and the head-
aches will disappear. For sale by all
dealers.

Inventions by Women.

It is believed that silk weaving
was invented by the wife of the fourth
Chinese emperor; bronze work by a
Japanese lady; cashmere shawls by
the women of an East Indian harem;
and Venetian point lace by some
Italian ladies.

J. W. Copeland, of Dayton, Ohio,
purchased a bottle of Chamberlain's
Cough Remedy for his boy who had a
cold, and before the bottle was all used
the boy's cold was gone. Is that
not better than to pay a five dollar
doctor bill. For sale by all dealers.

For the Invalid.

A sizeable shoe bag with several
pockets is just the thing for the sick
room, but not in its original capacity.
Pin it firmly to the side of the bed,
within reach; then it is convenient
for the invalid to slip into its various
pockets books, papers, handker-
chiefs, or any of the other things
which she uses, and which are not
only apt to get lost on the bed, but
when on the bed give an appearance
of disorder.

THIRD TERMER'S JOKE ON LABOR

Brandeis Shows Right to Or-
ganize Is Not Recognized.

THE PLATFORM IS SILENT.

Noted Lawyer Exposes the Flimsiness
of Promises Made to Workmen by
Perkins and His Candidate, Who
Stands For Private Monopoly.

"The new party pledges itself to so-
cial and industrial justice and specifi-
cally to 'work' unceasingly for effective
legislation looking to the prevention of
occupational diseases, overwork, invol-
untary unemployment and other in-
jurious effects incident to modern in-
dustry, . . . but nowhere in that
long and comprehensive platform . . .
can there be found one word
approving the fundamental right of
labor to organize or even recognizing
this right without which all other
grants and concessions for improve-
ment of the condition of the work-
man are futile. The platform promises
social and industrial justice, but does
not promise industrial democracy. The
justice which it offers is that which
the benevolent and wise corporation
is prone to administer through its wel-
fare department. There is no promise
of that justice which free American
workmen are striving to secure for
themselves through organization. In-
deed, the industrial policy advocated
by the new party would result in the
denial of labor's right to organize.

"The new party stands for the per-
petuation and extension of private
monopoly in industry—that private
monopoly from which the few have
ever profited at the expense of the
many and for the dethronement of
which the people have, in the past,
fought so many valiant battles. That
cursed product of despotism, the new
party, proposes to domesticate in our
republic, proclaiming, 'We do not fear
commercial power.' Certainly organ-
ized labor has had experience with the
great trusts which should teach all
men that commercial power may be so
great that it is the part of wisdom to
fear it."

The above declaration was made by
Louis D. Brandeis before the conven-
tion of the American Federation of
Labor, Massachusetts state branch, at
Fitchburg, Sept. 18.

Of Supreme Importance.

He urges a careful study of the new
party platform, particularly its effect
upon labor, noting not only WHAT IT
CONTAINS, but WHAT IT OMMITS,
adding, "When you make that exami-
nation you will find that there is a
significant omission and that this skill-
fully devised platform TAKES FROM
LABOR MORE THAN IT GIVES."

Labor Record of Trusts.

Mr. Brandeis then lays bare the labor
record of the trusts, declaring that
"great trusts—the steel trust, the sugar
trust, the beef trust, the tobacco
trust, the smelter trust and a whole
troop of lesser trusts—have made the
extermination of organized labor from
their factories the very foundation
stone of their labor policy. The ability
to defeat labor's right to combine
seems to have been regarded by the
trust magnates as a proper test of the
efficiency of their capitalistic combina-
tion."

Mr. Brandeis shows that in 1899,
during the Colorado smelters' strike,
the American Smelting and Refining
company closed its mills where the
strikers had been employed and trans-
ferred the work to other mills, thus
breaking the strike. The United States
Steel corporation had similar success
in 1901 with the Amalgamated Asso-
ciation of Iron and Steel Workers.
Had the association been dealing with
competing employers the result would
have been different. The United States
Steel trust was prompt in introducing
this plan. June 17, 1901, six weeks
after it began its operation, its execu-
tive committee passed this vote, which
was offered by Charles Steele, a part-
ner of George W. Perkins in the firm
of J. P. Morgan & Co.:

"That we are unalterably opposed to
any extension of union labor and ad-
vise subsidiary companies to take firm
position when these questions come up
and say that they are not going to re-
cognize it—that is, any extension of union
in mills where they do not now exist."

Union Men Not Wanted.

The result was that the bulk of
American union laboring men in the
iron and steel industry were made to
understand that they were not wanted
at the works of the United States Steel
corporation. Places once filled by
American laborers loyal to their union
were given to others, and as the Stan-
ley committee found, "Hordes of la-
borers from southern Europe poured
into the United States."

Hence about 80 per cent of the un-
skilled laborers in the iron and steel
business are foreigners of these classes,
the profits going to the steel corpora-
tion. Mr. Brandeis declared that "the
immediate and continuing result of
the steel trust's triumph over organ-
ized labor has been an extensive sys-
tem of espionage and repression."

There has been no disturbance of
business interests during this presiden-
tial campaign. Why? Confidence in the
integrity of the Democratic nomi-
nees and right purposes of the party.

DEMOCRATIC TICKET.

For President,
HON. WOODROW WILSON,
of New Jersey.

For Vice-President,
HON. THOS. R. MARSHALL,
of Indiana.

For Congress,
HON. J. CAMPBELL CANTRILL,
of Scott county.

Gov. Wilson's Courage.

There are few public men of the
courage of Governor Wilson. He stands
for a principle and dares defend it even
at the risk of failure to realize his
ambition. He had rather be right
than President, and the people will
love him for making enemies of those
who wear the livery of Democracy, the
better to serve the devil of Plutocra-
cy. It was Senator Smith of New Jer-
sey and his clique who, twenty years
ago made it impossible for the Demo-
crats to carry out their platform prom-
ises as to the tariff. He was a reac-
tionary then and he is a reactionary
now. He wanted to misrepresent the
State of New Jersey again in the
United States Senate and claimed that
his advocacy of a high protective tariff
is in the interest of the working man,
a most arrant absurdity. The men
who grow rich by the tariff are not the
friends of labor and no tariff was ever
designed for the laboring man.

Governor Wilson has no patience
with such utterances or with the men
who make them. He boldly declared
that Senator Smith must be beaten
and by a man who stands for policies
changed by circumstances and altered
by necessities of politics. In other
words that he would stand for no man
who does not stand squarely on the
progressive platform adopted at Balti-
more. The result was Smith was
beaten by 20,000. All honor to such a
man, and he is sure to receive it from
the people who love honesty in politics
and uprightness and integrity in men.

The Trusts and Teddy.

When Governor Wilson stated that
the trusts grew and flourished faster
under his administration than ever be-
fore in the history of the country, Col-
onel Roosevelt threw several fits
and indulged in his usual intemperate
language in denouncing the charge and
the man who made it. But Governor
Wilson is not given to making state-
ments that are not supported by the
facts.

Senator La Follette, one of the most
progressive men in the Republican
party, who was ruthlessly cast aside
by Roosevelt in his inordinate ambition
to be President again, makes the state-
ment, after full investigation, that
when Roosevelt became President the
total amount of the stock and bond is-
sues of all combinations and trusts, in-
cluding the railways then in combina-
tion, was only \$3,784,000,000. When
Roosevelt turned the country over to
Taft the total capitalization of the
trusts and combination amounted to
the enormous sum of \$31,67,000,000,
more than seventy per cent of which
was water. Prices were put up on
transportation and on the products of
the mines and factories to pay interest
and dividends on this fraudulent capi-
talization. No wonder the trusts are
favorable to the third term. They
know by experience that they can get
all they want with him at the head of
the government.

Thoughts on Education.

Educated people are often so stupid
as to make one doubt whether the
poor can gain all by education. But,
on the other hand, uneducated people
are often so wise that we fear they
have something to lose, even if they
have nothing to gain, by being edu-
cated. In short, the modern methods
of political reform, even when they
have done well, have not done so ob-
viously well that it is certain to be a
benefit to extend them.

Tax in Italy.

Why do protectionists never point to
Italy as an illustration of how exces-
sive tariff rates "protect" the common
people.

Italy is one of the most highly pro-
tected countries of Europe. It is fa-
mous as a country "flowing with milk
and honey."

Yet they never talk about Italy, do
the upward revisionist.

Italy put heavy duties on both agri-
cultural and manufactured imports.

She pays her people exceedingly low
wages. She charges them very high
prices for the necessities of life. They
emigrate in large numbers.

To understand the situation clearly
we must go back to 1887. About
that time a violent revolution in the
system of Italian customs was brought
about. A powerful political group of
textile manufacturers joined forces
for their own ends with a powerful po-
litical group of large landowners.
Tariffs were heavily increased. But
not on everything. That powerful
band of textile manufacturers took
good care that lesser manufacturers,
who made articles needed in the tex-
tile factories, were not enabled to put
up their prices.

Hand in hand with the powerful
manufacturers the big landowners
came out "for a slice of the tariff
pie." In order that they should be
sufficiently compensated for being in
politics, the landowners had a heavy
tax placed on wheat. In Italy it is
only the big landowners who grow
wheat. Three out of every four land-
owners in Italy are possessors of small
properties, cultivating fruit for wine.
They have to buy a considerable part
of the wheat they eat. So it happened
that where one large farmer got big-
ger profits, three small fruit farmers
got hit. That is the way protection
invariably works out. What is one
man's protection is another man's
poison.

Hark, however, this further result
of the Italian tax on wheat: Millions
of Italians never eat wheat bread, ex-
cept in cases of illness or special festi-
vals. They make a bread maize. In
this and in other respects the standard
of living of the Italian people is very
low, because prices are too high.

An enormous fiscal and protective
tax was also put upon sugar. The
prices grew so high that Italian farm-
ers watched their "oranges, lemons,
peaches, and other products of a warm
and generous sun rot on their trees in
order that the 33 manufacturers of the
sugar syndicate might levy upon con-
sumers a yearly tribute."

Far and away the chief of the Ital-
ian industries are silk reeling and
thread throwing. These industries
have been seriously hampered by pro-
tection. And Italy is the home of the
silk worm.

One of the chief troubles of Italy is
that the general rise in prices has so
greatly lessened the purchasing power
of the wages of the people that the
great mass of the small dealers and
the workmen and women suffer bit-
terly.

It is calculated that while ten Ital-
ians lose by protection, only one
stands any chance of gaining. He
does not always gain, for the country
does not progress. The interests of
Italy are sacrificed to the one in ten.

In other words excessive tariffs in-
creased the cost of living to the Italian
people just as the Payne-Aldrich law
is increasing the cost of living in the
United States.

Is it any wonder the protectionists
never ask us to "look at Italy."

Almost a Miracle.

One of the most startling changes
ever seen in any man, according to W.
B. Holclaw, Clarendon, Texas, was
effected years ago in his brother. "He
had such a dreadful cough," he writes,
"that all our family thought he was
going into consumption, but he began
to use Dr. King's New Discovery, and
was completely cured by ten bottles.
Now he is sound and well and weighs
217 pounds. For many years our fam-
ily has used this wonderful remedy for
coughs and colds with excellent re-
sults." It's quick, safe, reliable and
guaranteed. Price 50 cents and \$1.
Trial bottle free at Oberdorfer's.

Preserve Self-Respect.

Being honest is the greater part of
achievement. When you know that
you're doing the best within you, you
can't be downed. Self-respect is an
eternal life preserver—no matter how
often circumstances wreck you,
you're bound to float back to solid
ground again.—Exchange.

Bustard Might Be Valuable.

It is suggested that the bustard, a
kind of bird in China, be domesticated
in America. It weighs from 14 to 18
pounds and the flesh is well flavored.

The Danger After Grip

Lies often in a fun down system.
Weakness, nervousness, lack of ap-
petite, energy and ambition, with disor-
dered liver and kidneys follow an at-
tack of this wretched disease. The
greatest need then is Electric Bitters,
the glorious tonic, blood purifier and
regulator of stomach, liver and kid-
neys. Thousands have proved that
they wonderfully strengthen the
nerves, build up the system and restore
to health and good spirits after an at-
tack of grip. If suffering try them.
Only 50 cents. Sold and perfect satis-
faction guaranteed by Oberdorfer's.

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage
of life—when their delicate organism needs a tonic and helping-hand which only Dr.
Pierce's Favorite Prescription can give them. Many women suffer needlessly from
girlhood to womanhood and from motherhood to old age—with backache, dizzi-
ness or headache. A woman often becomes sleepless, nervous, "broken-down,"
irritable and feels tired from morning to night. When pains and aches rack the
womanly system at frequent intervals, ask your neighbor about

Doctor Pierce's Favorite Prescription.

Mrs. J. IMHOF, of 321 S. Benton Street, Baltimore, Md., says: "I
wrote you about nine months ago, telling you of my condition. I have a
fine baby girl—she weighed nine pounds when born. She is my third child
and the strongest of them all. My suffering was only for two hours. I
took several bottles of 'Favorite Prescription' and one of Dr. Pierce's
Smart-Weed. I never had a wail day before I took your medicines. I was
surprised how well I felt—could eat—was always hungry, and never had a
sick stomach. The nurse who was with me said the medicine was wonder-
ful because I got along so nicely after having had so much trouble before.
She intends to recommend it to all her suffering patients. Everybody is
astonished at me because I only weighed 132 pounds before and now I
weigh 135. I have had several ladies come to me and ask about Dr. Pierce's
medicine. I am willing to recommend it to all who suffer and want help.
If any want information I will be glad to give it to them."

Burley Tobacco Growers Boost Your Own Brands

We, as you know, are using your choicest tobacco in the brands of Strater Bros. Branch, and you know that nobody grows better tobacco than you do. You know how we manufacture, so you know that these brands are perfection. Now we want you to help us sell these brands this year even better than our best previous years. The reasons you should so help are as follows:

You Are Part Owner

The fact that you grow the tobacco makes you part owner of all these brands. Every time that one sells you profit. Every word that you say in favor of any helps to increase those sales. Every brand that you buy for your own use helps make those profits better. All our interests—your interests and ours—are pooled in these several tobaccos. It is logic that you should bend all of your efforts, however small, in the selling.

The United Power of 40,000 Buyers

40,000 men in a section wield an enormous buying influence. If all ask for these brands when they buy tobacco there results a gigantic sale. And big sales are the best advertising known.

Smokers and chewers flock to brands that they see the most people buying. 40,000 steady users indirectly make 40,000 more. Get them for Strater Bros. Branch Brands—the brands that you grow for—by using these brands yourself.

Tell Every Friend

Tell your friends of these brands. Tell them what you know of the tobacco. Tell them you grow it and *smoke and chew* it yourself, so you *know*. Tell them it comes from Kentucky, from the center of the richest Burley sections. Let them know it's the cream of your crops and that they can buy these brands from "most any dealer, because *dealers* know that these brands are the best they can buy.

Burley growers should be Burley Boosters and the best way to boost is to BUY Burley—YOUR OWN BRANDS—YOURSELF.

To Dealers! Dealers throughout the United States know these famous tobaccos. They are Nation-wide sellers—popular brands. They are helping these dealers to prosper. They are made from the pick of the famous crops of 40,000 growers. Every one of these growers is boosting them all. So are all of their friends. This method is using the profits to dealers—to those who sell these brands. Are they working for you? Here are the mid, fragrant smoking brands—GOLDEN GLOW—PENNY POST—FULL PAY. Here are the delicious chewing brands—INDEX—BY JOE TWIST—CUP—DAY'S WORK—ON THE SQUARE—TORCHLIGHT—STRATER'S NATURAL LEAF. Put them into your stock. See how they sell.

DR. DOLLE'S MESSAGE TO MEN

YOU CAN BE CURED BY

DR. C. L. DOLLE.

Why Take Treatment That Is Doing You No Good? Have a Few Days' Trial of Dr. Dolle's Will Show You How Easy It Is to Cure These Diseases When the Proper Treatment Is Administered.

Have you treated for months and years, and been disappointed until you think that you cannot be cured? Yes, no doubt, all this time have been treated by inexperienced doctors who had neither sufficient knowledge nor experience to know how to cure you.

These are the diseases of which I have cured so many, justly giving me the reputation for cure of which I am so proud.

Blood Diseases, Skin Diseases
I will give you treatment that will in a few days cure all rash, spots and every skin symptom. My treatment gets the poison out of the system instead of driving it in like ordinary treatments. I cure blood diseases and skin diseases so they cannot come back.

Variocoele, causing aching or pain in groin or back, Nervousness, Weakness, Loss of Vitality, Lack of Ambition—

My one-treatment cure is what you should have and what you will have to have to be cured. Only one visit is required. I do no cutting and you suffer no pain or trouble. All signs disappear in a few days.

Nervous Troubles, Lost Vitality
My combined treatment for these troubles to common sense those who have become weak and worn out, who have caused it by folly, dissipation and excesses, is remarkably good. No one believes how quickly it benefits until they have taken it. It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such diseases.

Kidney and Bladder Troubles
are scientifically cured by me. My methods immediately benefit you, and the majority of cases I cure come from physicians and specialists who failed.

Piles, Fistulae—I can cure you so quickly and easily that you will be surprised. I will give you just the result and cure you are looking for without a surgical operation.

Acute Diseases—Iching, Burning strong drug store remedies seldom cure. My treatment stops every symptom and cures in a few days. It is scientific—that's the only sure way to be cured so it will not come back.

You can take my Treatment without a cent and pay me after I cure you. I know that I can give you new life, new hope, and can restore you back to health and happiness. I know that every man will pay after I have eliminated every trace of disease from his system. Microscopic and analytical urinalysis FREE. I have written a book that ought to be in the hands of every suffering man in this country. I will send you a copy, free, if you will write me at once the disease for which you desire treatment. Hours, 9 to 4; Sundays, 9 to 2 p. m. Evenings, 7 to 9 on Monday, Wednesday and Saturday nights.

REPUBLICANS' EXTRAVAGANCE

Government Cost More Than Doubled Under Roosevelt.

DEMOCRATS' GREAT RECORD.

Startling Figures Which Show That the Cost of Our National Existence and the High Cost of Living Must Be Reduced.

Under a proper downward revision of the Republican tariff schedules the people of the United States would save \$2,000,000,000 each year, or over \$100 per family on manufactured goods alone.

President Taft's vetoes of the wool tariff bill and the steel tariff measure passed by a Democratic house COST THE PEOPLE OF THE UNITED STATES ABOUT \$650,000,000 PER ANNUM.

The cost of conducting the federal government MORE THAN DOUBLED between the close of President Cleveland's second administration (Democratic) and the beginning of President Roosevelt's second administration (Republican).

As the DIRECT RESULT OF HIGH REPUBLICAN TARIFF SCHEDULES the people of the United States pay a tax FROM NINE TO SEVENTY-EIGHT PER CENT on food and ordinary household articles used in the home by every family, rich and poor.

The total cost of running the federal government in 1890 was \$55,000,000.

The amount appropriated at a single session of the Sixty-first congress for the fiscal year 1911—\$1,027,133,446.44—was more than double the amount—\$544,496,055.13—appropriated for the fiscal years 1897 and 1898 at both sessions of the Fifty-fourth congress, the last congress of the second Cleveland administration.

Only eight years elapsed between the close of the second administration of President Cleveland and the beginning of the second administration of President Roosevelt and yet the amount appropriated during the four years of the latter—\$3,842,203,577.15—was more than double that appropriated in the four years Mr. Cleveland was at the helm—viz., \$1,871,509,837.47.

For 1910, the last fiscal year provided for in congress under President Roosevelt, the highwater mark in appropriations—\$1,044,401,857.12—was reached.

President Taft's estimate to the last session of congress for government support for the fiscal year was \$1,040,648,026.55.

In other words, governmental expenses for the FOUR YEARS of President Cleveland's administration (Democratic) were only \$830,861,551.92 more than President Taft's (Republican) estimate of the amount necessary to cover the expenses of ONE YEAR of President Taft's administration.

Congressman John J. Fitzgerald of New York, a Democrat and chairman of the committee on appropriations, in addressing the house Aug. 26, 1912, on the subject of appropriations said: "Thoughtful men have watched with alarm the rapid increase in the cost of government in the United States." He further said that two causes seem responsible for many present evils:

"One, the UNFAIR AND UNJUST SYSTEM OF TAXATION by which an undue share of income by those whose circumstances in life are not considered more than reasonably comfortable is taken through our customs laws for the support of our government; the other, the difficulty or inability to readjust our system of taxation and to remove many taxes from the necessities of life, so long as the GOVERNMENT IS EXTRAVAGANTLY CONDUCTED, or the instrumentalities provided for the conduct of the public service are either inefficient or are not utilized so as to render the most effective and comprehensive results."

Mr. Fitzgerald then called attention to the fact that the Democratic party pledged itself if entrusted with power to do two things—REDUCE TARIFF DUTIES AND RETRENCH PUBLIC EXPENDITURES by eliminating waste in administration and the abolition of useless, inexcusable offices.

The Republicans talk about tariff revision, and yet when a Democratic house in fulfilling Democratic promises to the people reduced the tariff, a Republican president vetoed the measure. "By their works shall ye know them."

Democrats in every state of the Union should organize and prepare for polling a record breaking vote Nov. 5. Be it remembered that no matter how certain victory seems, overconfidence is always dangerous.

Is there any reason why the Democratic party should go out of existence simply because Mr. Roosevelt has taken up the Progressive measures adopted by the Democrats eighteen years ago?—W. J. Bryan.

Mr. Roosevelt stood as a guarantor for Mr. Taft. Mr. Bryan says, "Now, when Roosevelt has failed so utterly in his judgment of men, I ask can he pass correct judgment on himself?"

World's Cables Made in America.

Practically all the world's cables are made in this country, the first having been made in 1857, the total length of the wire in the sheathing and core being sufficient to reach from the earth to the moon. When the sea is about three miles deep, and the ship is steaming at its usual rate, paying out a new line, over two and a half hours will pass before the cable reaches the bed of the sea. By the time the cable has settled to rest the ship is 25 miles away.

Fiscal Court Pays for Road Repairs.

That the efforts of Bourbon county toward the improvement of its public roads rank among the foremost of the state is shown by the expenditure of a sum in excess of \$5,000 by the Fiscal Court of the county yesterday for repairs upon its turnpikes, contracts for which were let several months ago, and the appropriation of \$2,144 for the use of the road supervisor in meeting an indebtedness incurred in keeping the roads of Bourbon in proper condition, besides another appropriation.

Aside from this there were several other matters of importance that came up at the meeting which was presided over by Judge Denis Dundon with the following board of Magistrates present: L. J. Fretwell, E. P. Thomason, J. J. Redmon, R. H. Burris, O. B. Lloyd, John N. Shropshire and G. K. Redmon.

At the convening of the court the report of the Head Supervisor C. F. Redmon, was read and approved and ordered made of record, and an appropriation of \$2,144.14 was made to meet the overdraft to the supervisor together with an appropriation of \$2,000 for future work on the turnpikes of the county.

County Treasurer S. E. Bedford was ordered to borrow the sum of \$10,000 to be turned into the turnpike fund, and a sum of \$300 was appropriated to pay L. Bower for repairing a bridge on the See pike. The court allowed claims to the amount of \$5,160.90 for repairs on the turnpikes of the county, and the number of accounts which were presented and allowed amounted in the aggregate to a sum of \$1,255.82.

The court elected the following county physicians for the year and fixed the salaries as follows:

Paris, East—J. T. Brown, \$250.
Paris, West—A. H. Keller, \$250.
Millersburg—C. B. Smith, W. V. Huffman, W. G. Dailey and J. D. Calhoun, \$250, divided.
North Middletown—J. A. Gilkey and L. R. Henry, \$150 divided.
Little Rock—P. L. McClure and B. F. McClure, \$100, divided.

Centerville—Elmer Sweatman, \$100.
Ruddles Mills—G. L. Rankin, \$100.

Three Hurt in Auto Accident.

Three persons were injured, none of them seriously, when an automobile driven by Reed Ashbrook, of Cynthiana, was wrecked a short distance from this city Wednesday night caused by the blowing out of a tire on one of the rear wheels.

The injured were Sam Ashbrook, of Lexington, Carl Musser, Cynthiana, and Frank Lally, of Holyoke, Mass. None of the men sustained injuries other than a few slight bruises and cuts, and their escape from more serious results is regarded as a miracle.

The party was returning from Lexington Wednesday night about 9 o'clock and were at the bridge on the Lexington pike crossing Houston creek when the blowout occurred. The car, which was being driven by Reed Ashbrook, its owner, was running at a moderate rate of speed.

When the tire exploded Ashbrook lost control of the machine and it went over the embankment striking a stone fence. The force of the machine striking the fence threw the occupants out, with the exception of Reed Ashbrook. Carl Musser suffered a scalp wound while Sam Ashbrook and Lally were fortunate enough to escape with a few slight bruises on the face and body.

The rear of the car was completely wrecked and the right wheel was torn off at the hub. The injured members of the party were picked up by a passing automobile and brought to this city where they received attention, and all returned to their homes.

Enforcing Ordinance.

The police department has been kept busy the past few days in instructing persons in the requirements of the new traffic ordinance passed at the last meeting of the City Council. The police have orders to rigidly enforce the ordinance regarding the traffic, but no arrests have been made and none will likely occur until the traveling public becomes accustomed to the requirements of the new law. The main street, upon which most of the violations occur, presents a much better appearance and, with the proper enforcement, all congestion of the principal thoroughfare should be relieved.

Worth of Education.

Quintilian recommends all parents properly to educate their children, advising them to train their offspring carefully in learning good manners and virtuous exercises, since we commonly retain those qualities in age which we cultivated and possessed in our youth.

Deafness Cannot be Cured.

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any cast of deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Windmill island occupied a position in the Delaware river between Philadelphia and Camden. A channel that was cut through the island for the passage of ferryboats divided it. One-half was afterward known as Smith's island, the property having been acquired by a family of that name. It was on Smith's island that the resort known as Ridgway Park was located. Both islands were removed by the government for the purpose of deepening the channel in 1894.

After any Sickness

nothing so rapidly restores health
and vigor as **SCOTT'S EMULSION**.
It is the essence of natural body-
nourishment, so medically perfect
that nature immediately appropri-
ates and distributes it to every
organ, every tissue—feeding,
nourishing and restoring them to
normal activity.

SCOTT'S EMULSION is not a
patent medicine, but is nature's
body-nourishment with curative,
upbuilding properties and without
a drop of drug or alcohol. It con-
tains superior cod liver oil, the
hypophosphites of lime and soda
with glycerine, and is so delicately
emulsified that it enters the system
without digestive effort—builds,
tones and sustains.

After croup, whooping cough,
measles and other child ailments it
is nature's ally in restoring health.

After grippe or pneumonia it
imparts strength and health, and
for colds, coughs, sore, tight chests
and throat troubles **SCOTT'S
EMULSION** gives the greatest relief
known.

MEAN SWEEP FOR WILSON

Democratic Gains in Vermont
and Maine Impressive.

OTHER PARTIES IN FLIGHT.

Third Termers to Poll Their Entire
Strength From the Rapidly Thinning
Republican Ranks—Indications Are
That Taft Will Carry but Two States,
Roosevelt None.

That the results of the state elections
in Vermont and Maine mean a tremen-
dous Democratic victory in November
is freely admitted by all except the bit-
terest partisans. Political experts have
done much analyzing, and some claim
to have reached novel conclusions. But
these facts stand out:

On Monday, Sept. 9, 1912, the Repub-
lican and third term parties combined
elected William T. Haines governor of
Maine over Frederick W. Plaisted, the
present Democratic incumbent, by
2,023 plurality; in 1908, a presidential
year, a Republican was elected gover-
nor by 7,553 plurality; in 1904 the plu-
rality was 25,800, and in 1900 it was
34,132. In other words, in twelve
years the Democrats have cut down the
Republican plurality in state elections
by 31,109.

In this period the Democratic vote
has increased from 39,000 to 68,000,
whereas the Republican vote has de-
creased from 74,000 to 71,000. The
Democratic vote of this year exceeds
that of September, 1908, by 1,000, but
the Republican vote is about 2,000 less
than that party cast four years ago.

The split in the Republican ranks,
following the election of William T.
Haines, is pronounced. If the divi-
sion in Maine in November is as it
was in the recent Vermont election
six-tenths of the Republican vote will
go for Taft, three-tenths for Roose-
velt and one-tenth for the Demo-
crats. It is significant that the latter
party has to date suffered no losses,
as compared with the vote in previous
years, from the third term move-
ment. On the contrary, it has gained.
The result in Maine may be expected
to be something like this: Wilson, 74,-
000; Taft, 42,600; Roosevelt, 21,300.

The returns from the recent Vermont
election show in round figures that
the joint Republican and third party
vote was 8 per cent short of the Rep-
ublican vote four years ago, while
the Democratic vote in that state
shows a gain of 25 per cent over that
of 1908. It is of special interest to
speculate what will happen next No-
vember throughout the nation if the
Republican and Democratic vote for
the national tickets happens to be af-
fected as the gubernatorial vote this
month in Vermont has been affected.
The New York Post has done some in-
teresting figuring along this line, and
as a net result it is shown that under
the contingencies mentioned President
Taft would carry only two states in
November, Rhode Island and Vermont,
all the others going for Governor Wil-
son. The conclusions reached by the
Post follow:

To compute this result we should
have to deduct 8 per cent from the
vote cast for Taft four years ago and
apportion the remaining vote in the
ratio of 62 to 38 between Taft and
Roosevelt, and we should have to add
35 per cent to Bryan's vote in 1908
and give the "demnition total" to
Woodrow Wilson—in other words, give
Taft 57 per cent and Roosevelt 35 per
cent of Taft's vote four years ago
and give Wilson 125 per cent of Bryan's
vote four years ago.

The result in round numbers would
be as follows, so far as regards Taft
and Wilson:

Convention in Louisville.

The National Convention of the Dis-
ciples of Christ will be held in Louis-
ville October 15 to 22. Many impor-
tant issues are to come up. At pres-
ent there are really three conventions.
The first two or three days are given
to the women for a missionary rally
and discussion. Then follow as many
days for foreign missions. And last of
all come home missions. Organizations
have charge during the respective
days. Interlarded between these con-
ventions are others of smaller moment.
This year one important convention
will come in. It is the Council on
Christian Union.

For some years a committee on uni-
fication has been at work, and will re-
port at Louisville in favor, so it is un-
derstood, of one convention, somewhat
on the lines of the Baptists, who until
recently had conventions in succession
but now have one. It is stated that
the report of the committee will pro-
voke spirited discussion. At the Chris-
tian Union Council Bishop Vincent, of
Cincinnati, representing the Episcopal
church, and the Rev. Dr. A. E. Corey,
president of Nankin, China, Universi-
ty, representing Disciples, will be
speakers. Bishop Vincent was a mem-
ber of the American Episcopal Com-
mittee that recently visited England in
the interest of Anglican unity.

The Rev. Dr. Peter Ainslee, of Bal-
timore, chairman of the Disciples Uni-
ty Commission, and recently president
of the Disciples National Convention, is
to be the Yale lecturer this coming
winter on the subject of Christian Uni-
ty, presenting there the Disciples'
message on the subject of unity. Dis-
ciples' missionary work will be said
present a favorable report at Louisville
especially that work done by the
women.

Philosopher on Marriage.

According to Herbert Spencer, love
between man and woman arises from
each serving as the representative of
the other's ideal. This idealism must
be preserved if love is to remain, and
to insure its preservation there should
be not less, but greater, regard for ap-
pearances between husband and wife
than between any other people. Equal-
ity of rights should also be recognized.
A man cannot regard as his type of
the ideal one whom he tries to com-
mand, and whom he has lowered by
denying an equality of privilege with
himself.

Stubborn Case

"I was under the treatment of two doctors," writes
Mrs. R. L. Phillips, of Indian Valley, Va., "and they pro-
nounced my case a very stubborn one, of womanly weak-
ness. I was not able to sit up, when I commenced to
take Cardui.

I used it about one week, before I saw much change.
Now, the severe pain, that had been in my side for years,
has gone, and I don't suffer at all. I am feeling better than
in a long time, and cannot speak too highly of Cardui."

TAKE CARDUI The Woman's Tonic

if you are one of those ailing women who suffer from any
of the troubles so common to women.

Cardui is a builder of womanly strength. Composed
of purely vegetable ingredients, it acts quickly on the
womanly system, building up womanly strength, toning up
the womanly nerves, and regulating the womanly system.
Cardui has been in successful use for more than 50 years.
Thousands of ladies have written to tell of the benefit they

You Want the Best— Not the Cheapest

Flanders "20" Roadster, \$750

Don't be alarmed if somebody tells you you can buy an automobile
for less money than the \$750 Studebaker-Flanders "20." You can, but
you better not. The Flanders "20" corresponds point by point with the
best and highest priced cars sold. Cheaper cars at every vital point are
built on ideas long ago discarded for good cars. Don't take our word for
it. Make comparisons and see.

The Studebaker-Flanders "20" is a marvel—a high grade modern car
at a low price. If you pay less you buy much less. And the cheaper car
today will cost you far more in the long run. The competing car isn't
sold which the Studebaker Corporation, the greatest automobile manu-
facturers in the world, couldn't reproduce for less money; but we won't
build a cheap car, because the name "Studebaker" means the best for
your money.

If you are content with a car that runs today and dies tomorrow,
don't buy the \$750 Flanders "20." It will wear for years. Remember
this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car

into the bargain.

Wednesday morning the testimonial meeting which had been suggested by Dr. McKenzie, proved very interesting and in this it was shown that a larger per cent of the school children of the county were in attendance this year than ever before. "The Use of the Dictionary," "Primary and Intermediate Geography" and "History" were among the topics discussed.

Amity Lodge No. 40 F. and A. M., met in regular communication Tuesday night and the lodge room was well filled. As there was no special business on hand the Master had arranged for a debate, which proved both interesting and instructive and was enjoyed by all present. The subject was "Is Freemasonry Advancing or Receding?" The affirmative was represented by Messrs. J. B. Cray and W. V. Shaw. The negative by W. A. Butler and R. M. Caldwell. There will be something doing in the lodge room of an interesting character through the remainder of the year.

The city council met in regular session Wednesday evening. All members were present except Councilman Peed. A few small accounts were allowed. The council ratified the work of the light committee in their arrangements for the third wire and ordered that the wire be purchased and put up at once. Fay Bros. were granted a permit to move a two story frame residence from the lot of the L. & N. railroad on Miller street to their lot on Second and Trigg avenue. Mrs. Ashby Leer entertained informally yesterday afternoon in honor of her aunt, Mrs. J. T. Prather, who has returned after a year in California. The event was one of the most delightful of the season. The beautiful Leer home was pretty in its decorations, the color scheme of pink and green being carried out in every detail. The house was darkened and softly illuminated with wax tapers in candelabra. The guests were met at the door by little Miss Josephine Leer, the attractive little daughter of the hostess, and Mary Bush Hall, who escorted them to the front hall where they were received by Mrs. John Clark Leer, Jr. In the parlors were Mesdames Ashby Leer, T. J. Prather, John Clark Leer, Sr., Frances Cook and Miss Eugenia Waddell. In the drawing room chocolate and egg kisses were served by Mrs. Chas. Leer who was assisted by Mrs. C. C. Chancellor and Mrs. O. P. Carter, the latter of Paris. Assisting in the entertainment of the guests were Mesdames T.

Teachers' Institute in Session.

The Bourbon County Teachers' Institute, which convened in this city Monday for a five days' session, will conclude today. The sessions are being held in the county court room in the court house. Dr. A. S. McKenzie, of State University, is ably conducting the institute which is attended by all of the county teachers.

Dr. McKenzie's opening address was on the subject, "Pupils That Are Slow." The first subject of the afternoon session was the discussion of "Primary Reading."

Domestic Science was the next subject introduced and was made very interesting by Miss Evans, who has charge of that department in the Little Rock graded school and Miss Jennie Howard. Prof. McKenzie also spoke along the same line, recommending the little work on "Home Economics," prepared by Mrs. Charles P. Weaver, of Louisville, organizer of the School Improvement League.

At the session Tuesday Prof. Roberts of the Little Rock school, led in the discussion of agriculture in the public school. Miss Bivins, teacher of the Redmon school, rendered a piano solo, and Prof. Irvine read some of his original poetical productions. Prof. Roberts also discussed the subject of manual training, which has been successfully introduced into course at Little Rock. At the afternoon session, Dr. McKenzie read Shakespeare's drama, "The Winter's Tale," with original deductions and applications. Dr. A. H. Keller, president of the Paris Board of Health, addressed the teachers.

The sessions of the institute yesterday were the most interesting and instructive of the week, several notables being in attendance. Miss Linda Neville, of Lexington, executive secretary of the Kentucky Society for the Prevention of Blindness, Prof. Scott, of Richmond and Prof. Philip Grinstead, of Cincinnati, were the principal speakers of the day. Mrs. James McClure, president of the Bourbon County School Improvement League, gave a short address on the progress of the local league and pointed out in many instances the result of its efforts. The institute will conclude its session today, following one of the most successful meetings in the history of its organization and of great benefit to the full number of teachers present.

Killing in Jackson.

Sam Baugh, aged 30, son of J. W. Baugh, of Quicksand, a small town four miles north of Jackson, was shot and mortally wounded by Kelly Robinson, of Jackson, on the streets of Jackson, Wednesday night at 10:30 o'clock. He was taken to the Good Samaritan Hospital in Lexington early Thursday morning, where he died at 1:35 o'clock in the afternoon.

Attempt to Kill Frankfort's Mayor.

Mayor James H. Polsgrove was shot in the leg shortly after one o'clock yesterday afternoon in Frankfort, by Patrick Haley. The wound is not a dangerous one. Haley fired several shots, two of them passing through Polsgrove's hat, barely missing his head. Haley's wife had sued for divorce some months ago and Mayor Polsgrove is her attorney. Polsgrove happened to have a black-jack in his pocket that one of the policemen had given him a few days ago. He jerked this out of his pocket and started at Haley while the latter was firing his pistol.

Result of Education.

Maude was home from Girton. "Will you," she said to her mother, "pass me my diminutive argenteous truncated cone, convex on its summit, and semi-perforated with symmetrical indentations?" She was asking for her thimble.

Mrs. Johns Gets Verdict.

In the Shelby Circuit Court at Shelbyville, Wednesday, Mrs. Lizzie M. Johns, of Lexington, plaintiff in an action for damages against the Chesapeake and Ohio Railroad Company, was awarded a verdict in the sum of \$5,000.

Thomas Johns, husband of Mrs. Johns, lost his life in an head-on collision January 16, 1912, between a Chesapeake and Ohio train and a Louisville and Nashville train near Long Run, in Shelby county.

The plaintiff was represented by Col. Robert B. Franklin, of Frankfort, and Robt. C. Talbott, of Paris.

Ireland Retires from Turf.

J. T. Ireland, formerly of Paris, left Louisville Wednesday for El Paso, Texas, and his going to that city means his retirement from the turf as well as the retirement also of another well-known Kentucky horseman, G. H. Keene. The latter will meet Ireland in El Paso and will, with the former open an office there, these two Kentuckians having formed a company, known as the Keene-Ireland-Pars Land and Cattle Company and the firm holds 11,000 acres of land on the Rio Grande River, partly in the United States and also in Mexico, and 15,000 acres near Moapa, Arizona. The company also holds the Government grazing rights on 450,000 acres of land in Arizona and is now building a dam on this reservation to cost \$180,000.

Ireland has been prominent as a Kentucky turfman for many years. With his brother, Frank, as a partner, in the old days he raced such noted cracks as Yale 91, Aldebaran and Donatello and scores of winners of minor turf events. The firm won the Latonia Derby with Newton in 1892.

P. Waddell and R. G. McClintock. The guests were served with ices and cakes in the dining room by Mesdames T. D. Judy, U. S. G. Pepper and Miss Emma Griffith.

STOCK, CROP AND FARM NOTES.

J. E. Boardman, of near Little Rock, shipped two cars of export cattle to Philadelphia that averaged 1,400 pounds.

Suckling mules are selling almost daily everywhere at prices ranging from \$70 to \$110 per head, with some extra ones at \$125.

Edsell Clarke, of near North Middletown, delivered this week to J. E. Boardman, of Little Rock, a drove of fancy export cattle, for which he received \$7.50 per hundred pounds.

A new disease is reported to be prevalent among the cattle of Hardin county. It affects the feet and mouth of the cattle. Several people have contracted the disease from exposure to the cattle.

The Blue Grass has produced the best corn in a decade, as it has all other crops, except that of wheat. The Blue Grass seed crop was enormous, oats was fine and heavy, hay was above the average, potatoes were so big the soil was lifted to make room for the growing tubers, orchard products were the best in years, while a big crop of poultry, including turkeys, are in sight.

Because of scarcity of fat cattle compelled St. Joseph, Mo., to abandon its annual stock show this year, a record price of cattle, \$11, was established at Chicago last week. The car load of cattle for which this price was paid, was fed with the intention of capturing the sweepstakes prize at the St. Joseph stock show, and when that event was declared off, the cattle were brought to Chicago for sale.

Beef cattle, veal, calves, hogs, sheep, lambs, milch cows and horses brought substantially higher prices to the producers on September 15, last, than a year before, though hogs and sheep brought less than two years ago. This showing, indicative of the relation of agriculture to the high cost of living, as made in a report of the Department of Agriculture on the average prices of agricultural products. Fruit brought a slightly decreased price, and vegetables' average prices fluctuated.

The meeting called by the tobacco growers of Owen county for October 1, in Lexington to consider the proposition of cutting out the tobacco crop next year, did not materialize. Editor M. H. Bourne, of the Owen News-Herald, who has been promoting the movement, accompanied by one or two growers from Owen county, were in Lexington but the growers from other sections apparently did not respond, and the meeting, like that called by Bath county growers several weeks ago, did not result in any action.

A 1,000 acre orchard on Muldraugh Hill in Hardin county, the best fruit growing section in Kentucky, is assuming the form of a reality. State Commissioner of Agriculture J. W. Newman, of Frankfort, is behind the movement, and will consider the subject as soon as he can draft articles of a fruit growing association. The orchard will be under the supervision of the State Agricultural Department. The farmers of the Muldraugh Hill section will pledge the land in tracts ranging from one acre to 100 or more, while the Agricultural Department will furnish free of cost the trees and an expert horticulturist to plant, trim and spray the orchard until it becomes productive.

All the Qualifications.

Among a large number of amusing letters received by David Belasco was the following: "Veneered Sir—Wishing to go on the stage, would like to join your forces. Have been a bricklayer for five years, but having failed in this branch, have decided to take up acting, the same being easier work. I am not young, but six feet in my stocking feet. Have studied elocution and am fond of late hours."—Everybody's Magazine.

Case of Ingratitude.

When Lord B— died a person met an old man who was one of his most intimate friends. He was pale, confused, awe-stricken. Every one was trying to console him, but in vain. "His loss," he exclaimed, "does not affect me so much as his horrible ingratitude. Would you believe it? He died without leaving me anything in his will—I, who have dined with him at his own house three times a week for 30 years!"—Life.

Sad Sequel to Wedding.

A landau in which a newly-married couple, the chief bridesmaid, and the "best man" were driving from church was knocked over by an electric trolley in Lille, near Paris, the other morning. The coachman had his legs broken, the bride, a girl of twenty-one, broke her right arm and was badly hurt in the head, her husband escaped without a scratch, and the bridesmaid and "best man" received internal injuries.

Think Human Tears of Value.

In Persia the past and present are linked by the belief that human tears are a remedy for certain diseases. At every funeral, each mourner is given a sponge with which to mop off the eyes and cheeks. After the burial the wet sponges are given to a priest, who squeezes the tears into bottles, which he keeps for curative purposes. This is one of the most ancient of eastern customs. See Fifty-sixth Psalm, verse eight, where David says: "Put thou my tears into thy bottle." This custom is still followed in Persia.—From Bombaugh's "Facts and Fancies."

Domestic Animals Protected.

The mayor of a little commune in the Pyrenees has just issued the following decree: "Whereas the young people of the commune are wont to meet and dance every Sunday after mass and the noise they make frightens the cocks, hens and other animals of the village and whereas the result is prejudicial to agriculture, we hereby prohibit dancing within the bounds of the commune during the hours in which the domestic animals take their repose."

Children Taught Cobbling.

Cobbling is recognized as a trade in the vocational schools of Buffalo. Several schools are set aside for teaching trades to young boys and girls, and the latest addition to the course is one in cobbling. A competent instructor has been engaged to teach the young men how to repair shoes. There are a number taking up the course, and it is certain that the trade will not become extinct with the young generation studying the principles of rejuvenating old shoes.

Depend Wholly on Coffee.

Coffee is the great staple produced by the civilized inhabitants of Liberia, and most of the planters are totally dependent on it. When the market price of coffee is so low that the yield will not pay the cost of labor and marketing and leave a margin sufficient for the needs of the planter, the plantations are neglected and, as there is no other crop to fall back on, a period of economic depression ensues.
